PROFESSIONAL SUMMARY

Java Full Stack Developer with strong hands-on expertise in Core Java, Spring Boot, Hibernate (JPA), and RESTful API development. Built end-to-end web applications with API/MVC endpoints and Also delivered a freelance full-stack website using React.js, Bootstrap, and EmailJS, taking it from requirements to live deployment. Currently pursuing an MCA to strengthen technical depth while working, with a focus on writing clean, scalable, production-ready code. Looking for an entry-level backend/full stack developer role to contribute, collaborate, and grow into an industry expert.

TECHNICAL SKILLS

Languages: Java (Core Java, OOP, Collections Framework, Exception Handling)

Backend: Spring Boot, Spring MVC, Spring Security, Hibernate (JPA), RESTful API Development, MVC Architecture

Database: MySQL

Tools & Platforms: Git, GitHub, Postman, Swagger, Eclipse IDE, Spring Tool Suite (STS), VS Code

Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap

Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability, Time Management

PROJECTS

MediNexus - Hospital Management System *Spring Boot | MySQL | REST API |*

- Developed a full-stack hospital management platform (MediNexus) with role-based access control for 4 user types (Admin, Doctor, Patient, Staff).
- Built 8+ core modules covering patient registration, medical records, appointment scheduling, billing, pharmacy, and lab management, streamlining end-to-end hospital operations.
- Designed an integrated appointment booking system with real-time doctor availability and slot management.
- Build RESTful APIs with Spring Boot and MySQL, and integrating analytics dashboards.

Tour & Travels Taxi Booking Website *React.js | Bootstrap | CSS | EmailJS*

Live: <https://travel-website-demo-kappa.vercel.app/>

- Built and deployed a fully responsive tour & travels taxi booking website as a freelance client project, covering 6 service categories including airport transfer, outstation trips, temple tours, and hill station tours.
- Developed a dynamic booking/enquiry form integrated with EmailJS, automatically sending real-time booking notification emails to the business owner on every customer submission.
- Integrated direct Call and WhatsApp click-to-contact buttons, letting customers reach the business instantly without manually dialing or saving a number.
- Built a component-based UI in React.js with Bootstrap for a mobile-first, cross-device responsive layout, including a vehicle fleet showcase, destination gallery, and customer testimonials section.

TRAINING EXPERIENCE

Java Full Stack Developer Trainee - CETPA Infotech Pvt. Ltd., Noida

Sep 2025 - May 2026

- Completed a 9-month intensive training program covering Core Java, Spring Boot, Hibernate, MySQL, and RESTful API development.
- Developed and deployed 2 backend applications, using Git and GitHub for version control and Postman for API testing.
- Applied OOP principles and SOLID design practices to build scalable, maintainable applications across 2 capstone projects.
