SUMMARY

- Motivated and detail-oriented graduate student of Computer Application with a solid foundation in software development, data structures, and object-oriented programming. Skilled in Java, with hands-on experience in developing web-application and standalone application like E-Commerce Website **using Servlet and JDBC**, Proficient in HTML, CSS and Relational Databases like **MySQL** along with the Nonrelational database **MongoDB**. Eager to contribute to impactful software development teams and want to grow as a **Full Stack Developer** in a dynamic environment.

TECHNICAL SKILLS

- Programming Languages:** Java (OOPS, Collection Framework, Multithreading).
- Backend:** Servlet, JSP, JPA(Hibernate), JDBC, Maven (Build Tool), XML (DOM & SAX Parsers).
- Web/Application Servers:** Oracle WebLogic Server, Apache Tomcat.
- Tools & Platforms:** Eclipse IDE, IntelliJ IDEA, VS Code, Spring Tool Suite (STS), GitHub, Postman.
- Database:** Relational Database (MySQL) and NoSql Database (MongoDB).
- Important Concepts:** Data Structures & Algorithms in java and SDLC.
- Frontend:** HTML5, CSS3.
- Soft Skills:** Problem Solving, Team Collaboration, Communication, Adaptability, Time Management.

PROJECTS

E-Commerce Website | Servlet, JDBC, HTML and CSS

November 2024 – January 2025

- Designed and developed a fully functional e-commerce web application using tech stack HTML, CSS, in front end and used **Servlet** for backend processing.
- Implemented features such as user authentication, product browsing, shopping cart, and order management.
- Integrated a MySQL database to handle user data, product listings, and order tracking with CRUD operations.
- Designed and developed the user interface of the e-commerce website using HTML, CSS and Servlet focusing on responsive layout, intuitive navigation, and a seamless user experience across devices.

Employee Management System | Java, HTML and CSS

October 2025 – December 2025

- Developed a full-stack employee management application using Java and MySQL
- Implemented CRUD operations using JDBC and followed OOPS principles
- Designed REST APIs to connect frontend and backend
- Performed form validation and database connectivity
- Outcome:** Successfully developed a working management system that allows efficient storage, retrieval, and management of employee data with reliable database connectivity.

TRAINING & INTERSHIP

- Training:** Java Full Stack Development | **CETPA Infotech Pvt. Ltd.** | Noida

- Internship:** Java Back-end | **CETPA Infotech Pvt. Ltd.** | Noida

September 2025 – February 2026

EDUCATION

- GLA University, Mathura**
Bachelor Of Computer Application August 2022 – August 2025
- Satya Devi Garg inter college Mathura**
Intermediate April 2021 – March 2022
- Satya Devi Garg inter college Mathura**
Highschool April 2020 – March 2021
